

Dear Friends

I need your help to make sure that I only eat dog food and not things that make me sick. At the moment I have a sore tummy and I think it might be because some of you are sharing your yummy lunches with me.

I'm not very good at saying no to food and so I am eating human food that I shouldn't and that makes my tummy sore. Sometimes I'm silly and eat the sticks, or acorns, or bark and other things you bring me to play with out of the playground too.

Can you please help me only eat the right things and not give me anything else that I might eat.

Thank your for helping keep me healthy.

Your friend always

Milo
